

# The UKWF 2011 AGM kicks off at St Andrews on October 13th - make sure you're there!

*Kick-off*  
11-00am Thursday  
October 13th, 2011

*Venue*  
St Andrews Football  
Stadium, Birmingham

This looks like being our best and quirkiest ever AGM - so there are plenty of good reasons why you should take your seats at the home of the 'Blues' for our 2011 Annual General meeting. Our guest speakers include:

Daniel Maxim, Chairman of the Trading Standards Metrology Group - who will be offering some background on the current working arrangements within local government metrology Daniel will explain how greater co-operation and co-ordination might be achieved as well as some of the challenges facing enforcers by marketplace evolution

Andrew Lound - Writer, Lecturer and Broadcaster - "The Weight of History" - "He who controls commerce controls the world, he who controls weighing controls commerce" Andrew gives an alternative view of the development of the world through the eyes of the 'Eternal Weigher'. Hang onto your seats -with images, props and accompanied by music (and possibly smoke and mirrors) - *this is definitely not to be missed!*

*Au revoir*

It's also time to say a fond farewell to John Anthony, our Technical Officer for the past 18 years. This will be a tear jerker so bring your box of tissues along! His worthy successor Ian Turner will present the Federation's Technical Report.

*And if you've ever wondered what goes on behind the scenes at a major football ground, book your place in the team for an extensive conducted tour after the meeting*
