THE EUROPEAN ASSOCIATION OF THE WEIGHING INSTRUMENT INDUSTRY

CECIP is the European association representing the European manufacturers of weighing instruments. Founded in 1958, CECIP today has **12 national member associations and two company members.**

CECIP has members from: Austria, Czech Republic, France, Germany, Italy, Netherlands, Poland, Portugal, Slovakia, Spain, Sweden, Switzerland and United Kingdom.

Moreover, CECIP cooperates on an international level with national associations from China, Japan and the US.

WEIGHING INSTRUMENTS CONTRIBUTE TO A BETTER WORLD EVERYDAY

There is a wide variety of reliable and high-quality European weighing instruments improving processes and equipment in various ways.

Weighing instruments help consumers, researchers and companies in situations such as:

- **Protecting consumer rights** via trustworthy and reliable supermarket scales.
- Helping doctors **providing the right medical care.**
- **Supporting advanced research** via high-precision scales.
- **Increasing productivity** in the process industry by enabling automation.
- **Producing safe and high-quality food products.**
- **Making agriculture more sustainable** by allowing agriculture machinery to work more precisely.
- **Ensuring fair business-to-business trade** via accurate truck scales and bulk scales.

CECIP's mission is to improve and harmonise standards and legislation for weighing instruments in order to provide reliability and quality to their users and consumers.

CECIP activities

- Representing the weighing instrument industry at European (E.g. EU & WELMEC) and international (E.g. OIML) level.
- Providing services and expertise regarding weighing legislation for its members.
- Collecting statistics on the economic developments in the European weighing industry markets.
