

75<sup>th</sup> General Assembly Frankfurt 2025

**CECIP**

European Weighing Industry

Members Report  
2025

**AUSTRIA**

## Structure of WG Scales within the Guild of Mechatronics

Stable over the last years, representing the vast majority of Scale companies in Austria.

## Challenges

Potential challenges might swap into Austria, based on close contact of Austrian authorities to German authorities. First issues with topics like Max, Min, e raised last year.

## Activities

Due to the fact, that none of our members produces scales in Austria, the main activities of our federation deal with legal verification. Legal clarifications (e.g. are scales in the scope of the Austrian legislation to implement the European Accessibility Act), organization of intercomparison among verification bodies.

## Goals

Collaboration with CECIP and Austrian authorities.  
Harmonisation of legal requirements and verification procedures within Europe.
